The Royal Agricultural College, Cirencester, provides bespoke training and development solutions to meet individual businesses training needs.

Together we can build a training course that will give your staff the knowledge they need to feel confident in helping your business to succeed, and at the same time provide them with Continued Professional Development.

The Royal Agricultural College can offer your business:

- Comprehensive training facilities
- Access to academics
- On-site accommodation to cater for residential courses
- Starbucks and college canteen
- Fitness facilities (gym, fitness classes and outdoor sports facilities)
- On-site car parking
- Comprehensive library facilities and IT suite

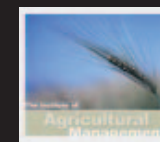

As well as bespoke training we also deliver a range of short courses, which include:

- Leadership and Management Development Programme
- Business Management
- Business and the Environment
- Insight into Agriculture Farming for non-farmers
- Farming and the Environment
- Environmental Management and Legislation Update
- Estate Management
- Organics - markets, standards, systems and the future
- Energy Workshops

The Royal Agricultural College has a commercially focused Professional Training Team that collaborates with the college's many regional, national and international networks. It can offer courses tailored to meet specific individual client requirements.

Through its specialist academic networks and contacts, the college is able to bring high profile relevant experts to its training programmes. Delegates may also visit one of the college farms and the Rural Skills Centre as part of a training programme.

There are comprehensive training facilities on-site as well as accommodation to cater for residential courses. These facilities are also available for private hire to deliver your own training or seminars.
